

ADDITION AT ANAHAREA

This past June, in between groups, we started work on a 20 x 24 addition to our camp at Anaharea. The addition will include three bedrooms and a three-piece bathroom. Once complete the old bedrooms in the back of the camp will be removed. With time restrictions and weather, we were unable to complete the project this fall. We plan to continue the work as soon as the ice goes out and we are looking forward to our guests enjoying this updated camp.

FISHING 2023

We are happy to see many of our guests return this year now that traveling is back to normal. May, June and August have always been the most popular months for fishing but according to our anglers they have noticed an increase in both average size and number of fish being caught throughout the whole season.

After 35 years in business Kelly and I have officially retired as of June 2023. We are pleased that Courtney and Matti decided to purchase Hawk Air and that it will remain in the family.

We would like to thank all our customers for their support over the years.

Kelly stays busy in his shop repairing and building and I enjoy doing embroidery. We are also very fortunate to have 7 grandchildren that we get to spend time with.

Mary and Kelly

July & September Fishing

July is an excellent month if you are looking for a family vacation. The days are long, the sun is out and there tends to be less bugs. The fishing has proven to be very successful during this month. With longer days, peak fishing periods are dusk and dawn. On sunny days the walleye are found hiding in the weeds and rock structures.

September in Northern Ontario is amazing. The weather is still warm, the colours and scenery are beautiful, and the fish are still biting. The walleye are plentiful and can be found at various depths depending on the water temperature. The pike become active in the shallows of the lake as the water temperatures begin to cool.

Kelly Jr.

Kelly Junior has been with Hawk Air for over 20 years. Over the years he has gained a lot of knowledge and has become the go to guy. He is excellent at mentoring and teaching his nephews around the base and in the bush. In the winter Kelly supply teaches at three different schools and curls in two different leagues.

Courtney & Matti

Matti and I are honoured to carry on the family business. We are very fortunate that we get to spend the weekends in the winter watching our two boys play the game they love.

THE HAWK AIR FAMILY

The Etheridges

After over 30 years, Len has officially retired from flying and is enjoying being a grandpa to his three grandsons. We are happy that he has continued to share his experience and humor around the base and in the bush a few days a week.

Mark, Len's son, started flying with Hawk Air right out of college before moving on and flying around the world. We are excited that Mark's adventures have brought him and his family back to Wawa where he has returned to fly for Hawk Air. This fall Mark hit 10,000 flight hours while flying the airplane Len spent the majority of his career in.

The Boys

Makai and Fynn were back on the dock working this season and they had some help from their cousin Rowan for a few weeks. All three boys keep busy in the winter competing in the Northern Ontario U18 AAA hockey league. Makai (grade 12) and Fynn (grade 10) play for the Kapuskasing Flyers and Rowan (grade 11) plays for the Sudbury Wolves. All three boys plan to be back working next season.

Uncle Andy

Andy, known as Uncle Andy to most, is a huge help around the base and to all of our guests. He always takes time to help with any of their questions. In the winter he spends his time volunteering with many groups and clubs in our community and loves to get out hiking, snowshoeing and curling.

HAPPY HOLIDAYS

If you are looking for more information or have questions don't hesitate to contact us. We are looking forward to seeing all of you this coming year.
